Join us for a special presentation on Blessed Miriam Teresa, known as the “*American Therese*.” She enjoyed simple, everyday things including shopping, seeing shows, and visiting museums. She entered the Sisters of Charity of Saint Elizabeth and wrote a series of reflections about growth in holiness posthumously published under the title “*Greater Perfection*.” Before her death at the age of 26, she was granted special permission to profess final vows. She was beatified in 2014 - the first person to be beatified in the United States. **Veneration of the Relics of Padre Pio and Blessed Miriam Teresa will follow the presentation.** Items relating to Blessed Miriam will be available for purchase in the narthex.
